Company introduction

Colormake is a digital printing solution provider which has been found to contribute to printing industry and society.

The technology of ink dispersion developed independently and know-how of many years have fully satisfied the demand of the rapidly changing digital market and our technology is being acknowledged by foreign business partners by our rapid development of new products and high quality of products based on R&D personnel.

We specialize in manufacturing OA inks for desktop printers as well as WFP(Wide Format Printing) inks for indoor & outdoor advertisements such as banners, placards, posters, wrap ad on cars, etc.

On the basis of proven quality of our inks by world-wide customers, we have been supplying a variety of inkjet inks as follows;

- Water-based dye & pigment inks
- Eco-solvent inks & mild solvent inks
- Piezo pigment inks
- Ultra chrome inks
- Heat transfer inks

All our items are perfectly compatible with branded desktop printers and large format printers spread around world. Please join us to enjoy our natural color and cutting-edge ink technology so that we can serve you with our best effort.

Colormake always looks ahead into the future and creates new value to grow with customers and partners

Since the establishment in 2006, we, Colormake, have been growing as small but strong company in the world thanks to your concern and encouragement. We will be the spearhead of pioneering the future based on our accumulated technology, know-how and experience so that we can keep the following promises.

To provide customers with benefit

We will be reborn as customer-oriented company that cherishes customer's benefit on the basis of supplying perfect quality products with on-time delivery by continuous research and development as well as productivity improvement.

To focus on high value-added business by creating new engine growth

We will not only constantly expand stable business field of our own through amplifying synergy in digital printing business but also will become a global leading company as concentrating on creating new growth engine and build its solid foundation to realize our success of high value-added business.

To grow as more powerful company

All our Colormake folks will make energetic progress to be a world top-class through fulfilling mid- and long-term business growth strategy as well as constructing substantial foundation of internal stability based on cultivating and procuring talented personnel.

For the future, Colormake pursues the work of being reborn as the enterprise which customers rely on and makes efforts endlessly and considers environment by utilizing the differentiated technology and synergy effects with Colormake enterprises which is top-notch paper provider.

Colormake's commitment to satisfying our clients will be lasting as long as even one single demand exists.

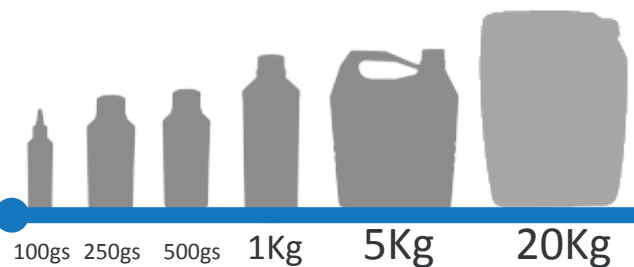

Ink Jet Inks

We, Colormake, have been supplying quality bulk ink for the decade and built high reputation around the globe. To meet our customers' request, all Colormake folks are striving to make a stable quality of inkjet inks based on stringent product test along with well-organized quality management system. The wide range of our inkjet inks especially in desktop printing field provide our customers with optimal solution along with the following advantages.

Color

Packing Size

Characteristics

- Super Visuality Ensures more clear and clean printouts.
- Nanotechnology promises brilliant color quality without printer head clogging.
- He best printing quality in any adverse situation by use of purification technology of Moorim.

Eco Solvent Inks

Colormake premium eco solvent ink is an eco-friendly product having lighter smell than the existing eco solvent ink products and improved permeability on the media thanks to the world-top abilities in ink development and ink dispersion technology. It is suitable for both coated media(PVC/FLEX) and enables you to enjoy incredible print quality and realistic color close to the original one.

Characteristics

- Enhanced durability of the head.
- Increased scratch resistance thanks to improved sheet permeability.
- Compatibility with a wide range of media.
- Rich and brilliant color gamut.
- Reinforced reliability due to stringent product tests.

Application

- Wallpaper designs
- Exhibits
- Displays for department stores
- Wrap advertisement on cars
- Wall paper / Blind

Compatible Printers

Refill Tools

Vacuum refill Tool

Colormake Brand presents a new tool to refill using Vacuum effect. This useful and practical tool can save time and money in addition to allowing you to make a more professional and clean job.

Developed by Colormake this tool is made with durable materials. Definitely solves the problem of air in the ink container using the vacuum generated at the time of recharge. One action creates a vacuum by removing all the air and then enters the ink in the cartridge only.

This tool comes in 5 models compatible with HP and Canon most popular Cartridge. Inside each box you will find plugs to block the entry of air into the cartridge during refilling, Ink Colormake containers and syringes necessary to perform the work and avoid contamination. The tools color compatibles come with a bottle of ink for each color. The black compatible tools bring 3 bottles of black ink.

For best results, the cartridge must be completely empty and make sure that does not contain another type of ink to avoid the Colormake Ink contamination. Having a cartridge in optimal conditions before using the tool ensures a successful recharge. The use of ultrasonic cleaner, Centrifuges and Snaps Tools, is a good maintenance practice, you can purchase these tools by contacting the sales staff of Colormake Your best choice in printing consumables

Snaps

Made with high quality material offers the best handling of cartridges while recycling. Our refill tools are simply the best money and time saving solution refilling your ink cartridges by yourself with this fabulous refill tool. Take total control when making recycling work. prevent accidents and waste of ink.

Heat Transfer Ink and Paper

Dries to the touch immediately after printing excellent reproduction prints sharp and clear. Sharpness and colorful is what you get when you printout with Colormake paper. Clearer prints with the best display of detail. Vanguard technology available to you. Excellent image quality, vivid colors, Excellent color saturation and variety, Supports resolutions up to 5760 dpi, Excellent lamination capacity, Cleaner details and pure.

Characteristics

Vivid color and excellent water resistance + Fast drying speed.
High application of disperse technology + Safe long-term storage of ink

Compatible Printers

Ink Jet printers with Piezo Electrical Heads Like Epson and Brothers

Application

- Polymer fabrics • Mug • Bag
- Advertising-placard • Shoes
- Back-Hght film • Clothing • Banner
- Textile • Wall paper, etc.

Heat Transfer Machines

These machines provide versatility and control in the process of sublimation. The material of the plate is designed to heat quickly and uniformly distributes heat without complications. Allows good control of time and temperature. Solid and robust construction.

Machines

- Mug Heat Press
- Digital clam Heat Press Light weight
- Combo Heat Press 6 in 1
- Combo Heat Press 8 in 1
- Combo Heat Press 4 in 1
- Heat Press for 5 Mugs

White Mug for Heat Transfer

These mugs are made with excellent quality. They support very well the process of sublimation. Are coated with a layer of high quality special Polyester which melts and reacts excellently well with most heat transfer Inks. 11 oz size is perfect for a multiple purposes, maintains image brightness and long wash after wash.

Color Make is a manufacturer and wholesale supplier for the cartridge refilling and printing consumables markets. Within 5 years of existence we have offices in USA and Hong Kong. Our office in USA has been in full operation since January 2012 and is located in Miami, FL, where we manage a logistics center and a showroom.

Color Make products represent the best value and we firmly define our position in international markets. The high performance of our inks is based on the combination of prime raw materials, high quality control standards and application of the latest manufacturing processes. Our nano pigment technology ensures uniformity in all colors, providing vivid and well defined prints. Additionally, self-cleaning agents and lubricants extend the life of your cartridge. Our ink is at the premium level, backed by international quality seals.

The used of machines and accessories especially designed for the cartridge refilling and re-manufacturing process are indispensable allies. Our unique tools are durable, functional and comfortable to use, offering optimal results. You can count on the fact that we have dedicated time and effort to make excellent products readily available to you. That's why when purchasing machines and accessories for your business our tools will help you stand out and be a leader in your market.

EPSON Ink

These are Colormake Brand new, UV resistant bulk ink for Epson. They are specially formulated for Epson printers and ink cartridges, not universal refill ink. They can be used in refilling Continuous Ink Supply System (CISS/CIS), Refillable ink cartridges, and OEM cartridges. Our inks are made with nano-pigments, this guarantees perfect uniformity in color, the best adhesion to paper, outstanding brightness rendering real, vibrant and live colors, giving great clarity and definition. Our inks also have cleaning agents and lubricants which help to extend the life of the cartridge.

Cleaning Solution

CMCL-IJD-BI-3 for Dye-based	1 kg	<input type="checkbox"/>	Dye	Compatible with the type of ink Dye-based	All Inkjet Printers
CMCL-IJP-BI-3 for Pigmented Ink		<input type="checkbox"/>	Pigm.	Formulated to treat inkjet cartridges using pigmented ink	

Ink

Eco Solvent Inks EPSON

Colormake premium eco solvent ink is an eco-friendly product having lighter smell than the existing eco solvent ink products and improved permeability on the media thanks to the world-top abilities in ink development and ink dispersion technology. It is suitable for both coated media(PVC/FLEX) and enables you to enjoy incredible print quality and realistic color close to the original one. The Best Choice.
